DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 6 recites the limitation "the reset signal". There is no previous recitation of this limitation; therefore, there is insufficient antecedent basis for this limitation in the claim.

Claim Objections

3. Claim 7 is objected to because of the following informalities: Claim 7 recites the limitation 'a decoder unit responsive to a rest signal'. This limitation should be ' a decoder unit responsive to a reset signal'. Appropriate correction is required. Claims 8-10 are also objected because of this informality.
